Cherkaska Oblast State Administration and Council

Chernihivska Oblast State Administration and Council

Chernivetska Oblast State Administration and Council

Dnipropetrovska Oblast Council

Ivano-Frankivska Oblast State Administration and Council

Kharkivska Oblast State Administration and Council

Khersonska Oblast State Administration and Council

Kirovohradska Oblast State Administration and Council

Khmelnytska Oblast State Administration and Council

Kyivska Oblast State Administration and Council

Lvivska Oblast State Administration and Council

Luhanska Oblast State Administration and Council

Mykolaivska Oblast State Administration and Council

Odeska Oblast State Administration

Poltavska Oblast State Administration and Council

Rivnenska Oblast State Administration and Council

Sumska Oblast State Administration and Council

Vinnytska Oblast State Administration and Council

Volynska Oblast State Administration and Council

Ternopilska Oblast Administration and Council

Zakarpatska Oblast State Administration and Council

Zaporizka Oblast State Administration and Council

Zhytomyrska Oblast State Administration

We acknowledge the support and cooperation on the part of the Government of Ukraine (especially the Secretariat of Cabinet of Ministers and the Ministry of Regional Development and Construction) and our regional partners, namely Oblast State Administrations and Oblast Councils. We also acknowledge the support of all pilot rayon authorities (rayon state administrations and councils) and village/city councils that are the partners of CBA Project for their support in CBA implementation.

Similarly, CBA team would like to thank all the institutions/individuals involved in the implementation process for their cooperation during the quarter, namely EC Delegation Office and UNDP management, Crimea Integration and Development Programme, officials of oblast and rayon state administrations/councils, NGOs, media, other public and private agencies.

EXECUTIVE SUMMARY

Community Based Approach to Local Development Project (CBA) was launched in December 2007 with objective to improve living condition of the people across Ukraine through improved service delivery and participatory governance. Following summary of activities and statistical abstract highlight on its achievements during 2nd quarter of 2009:

In the second quarter of 2009, implementation of CBA Project continued, with regional launching completed, and selection of pilot rayons and communities approaching the end. Other important process e.g. institutional development, capacity building, participatory planning, plan mainstreaming, implementation of community initiatives took place albeit at different scale. Details about key activities are given hereunder:

Partnership Agreements were signed with 2 obasts: Dnipropetrovska and Odeska. Selection of 8 pilot rayons was completed in Donetska oblast, reaching 100% coverage of the target rayons. In total, 200 rayons and one city council (of oblast subjugation) were selected in all regions. Following to the rayon selection, a net of 34 village/city councils were selected in 15 regions during the quarter. In total, selection of 995 village/city councils was completed by end of 2nd quarter 2009.

In the reported period, focus of Project activities shifted to community mobilization and micro-project proposals. Through community dialogues, 51 new Community Organizations were formed in second quarter with participation of additional 76,709 households. In total, number of COs formed since inception amounts to 961 with involvement of 235,396 persons (59% female). To facilitate the process, CO-manual was published and disseminated.

132 training courses were held during the quarter to build capacity of community activists as well as focal persons from local governments. In cumulatively term, 593 trainings were held for about 14 069 persons (77% CO-members, 23% officials from local authorities).

219 COs prepared community development plans during the quarter. Of them 197 plans were approved by the Local Development Forum. Since inception 871 were prepared by COs. Priority in the plans was focused on energy savings (53%), followed by healthcare services (22%), water supply (19%) and others (6%).

In the reported period, 142 community micro-project proposals were approved by CBA for funding. During the quarter, financing was released (from CBA project side) for new 73 and 10 on-going community projects, amounting to UAH 1.45 mln. Total cost of all the 247 projects approved since inception is UAH 34.9 million of which 8% came from the beneficiary COs, 9% from the village/city councils, 30% from the rayon authorities, 6% from oblast authorities, 1% from the private sectors and remaining 46% from the CBA.

Extensive media coverage of Project activities in the regions was traced. During the quarter, 204 media coverages were registered across Ukraine, including printed and electronic editions, radio and TV reportages. Total coverage since inception amounts to 1209. Also, 36 issues of regional newsletters were published and disseminated among target audience during the quarter besides 82 news posted on various websites.

Six visits were organized at community level during the quarter to familiarize the representatives of government and donors about process and results of CBA implementation. The visitors comprised of representative of Secretariat of the Cabinet of Ministers of Ukraine, Department of Regional Policy; Head of the Delegation of the European Commission to Ukraine and Ambassadors of Great Britain and Sweden; representatives of British, Hungarian, German and Polish embassies; Deputy Director, UNDP Regional Bureau for Europe and the CIS and senior management of UNDP/Ukraine.

In the 3rd quarter of 2009, target will be accomplished in terms of partnership with the regions, rayons, VC/CCs and COs. Focus will be placed on capacity building, planning and implementation of community initiatives. Also, documentation and dissemination of lessons learned will be carried out.

STATISTICAL ABSTRACT

^{*} Includes a city council of oblast subjugation

^{**} Addition/deletion in the number of communities took place from time to time in the regions. As a result, number of HHs and membership also changed accordingly. The data indicate net of the changes.

CHAPTER I

CONTEXT

- 1.1 Project Genesis
- 1.2 Project Area

1.1 PROJECT GENESIS

1.1.1 Background

Ukraine has made significant economic development since its independence. However, it is still challenged by some serious issues. Economic growth is not equitable, with only small share of population benefiting from its fruit. Those who suffer most live in rural and semi-urban areas. Low living standards in these areas are characterized, besides low income, by insufficient access to medical care and education, underdeveloped (or worn out) basic infrastructure and poor access to drinking water. Social, health and environmental problems at local level have is very common and warrant serious attention.

These challenges form a part of the MDG signed by Ukraine in 2000. To achieve these goals, much work is needed, especially at local level. The experience around the world¹ indicate that solution to these challenges is contingent on empowerment and active involvement of local communities, and their capacity to identify development priorities and ensure their attainment. However, legacy of the highly centralised system of policy, planning, budgeting and decision-making is yet to be adequately geared towards accommodating the needs and priorities as perceived by citizens and local authorities. On the other hand, passive attitude of the population in general and limited capacity of the local governments in rural areas to generate revenue remains a challenge.

Experience of European Commission's projects on pilot models for sustainable regional and local development have indicated the need to emphasize 'bottom-up" approach in tackling social needs of the poor population. On the other hand, Area-Based Development (ABD) Approach promoted by UNDP Ukraine through its projects² has proven to be an effective way of achieving social goals in a decentralised manner. In close partnership with local authorities and local communities, ABD Approach unleashes the potential of the people to help themselves. It brings local authorities and communities together for joint problem-solving and development activities, thus reinforcing the MDGs.

Joint EC-UNDP initiative - the Community-Based Approach to Local Development (CBA) is founded on the achievements of ABD approach and is meant for applying its main tenets country-wide and provide valuable inputs for the ongoing policy debate on administrative and fiscal decentralisation and further democratisation of society. CBA Project commenced in December 2007 and functioning since January 2008.

1.1.2 Objectives

Main objective of the CBA Project is to create enabling environment for long-term self-sustaining social-economic and environmental development at local level throughout Ukraine.

Specific objectives of the Project are to:

- Improve living conditions in rural and (semi-) urban communities through sustainable communitybased self-help initiatives;
- Demonstrate participatory local governance, joint decision making and public private partnership for decentralised public service delivery through self-governing community organisations;
- Enhance professional skills and knowledge of community organizations and local authorities to initiate and maintain participatory local process on sustainable social economic development and public services delivery;
- Document experience on participatory planning, decision-making and social action with a view to providing inputs for policy and legal reforms.

1.1.3 Project Strategy

The strategic goal of the CBA is to build capacity for participation of the local communities and local authorities into joint decision making process and use this capacity for multi-stakeholders cooperation and multi-sectoral interventions that are geared towards strengthening of local governance and sustainable

As reflected in the conclusions of the World Summit (1992) at Rio de Jenerio and World Summit (2002) at Johannesburg. Local Agenda 21 (www.un.org/esa/sustdev/agenda21.htm) and Johannesburg Declaration (www.un.org/esa/sustdev/documents/Johannesburg%20Declaration.doc) may be browsed for details.

² Crimea Integration and Development Programme (CIDP); Chernobyl Recovery and Development Programme (CRDP); and Municipal Governance and Sustainable Development Programme (MGSDP)

human development with ensured local ownership of the process. To this end, following strategies are followed to materialise the objectives of the Programme.

All oblasts of Ukraine and in Autonomous Republic of Crimea form the overall project area of CBA while selected raiyons, village/city councils and local communities form the functional area. Selection is based on the level of socio-economic hardship facing them. Partnership based on willingness and commitment for cost sharing, form the basis of Project implementation in the selected area.

ABD approach is utilized to unleash the potentials of selected communities to address their common needs focused around health, environment, energy, water supply and local transportation. To this end, the selected communities are organised into 'community organisation (CO)' founded on norms of good governance.

Appropriate support structures are created at various levels to facilitate smooth implementation of the Project. Through networking of local communities, local/regional authorities, private sector and civil societies appropriate fora are established at rayon/oblast level so that they can hold regular dialogue on sustainable development envisioning, mainstreaming of community plans, deciding upon public-private partnership mechanism for implementation of local priorities and carrying out participatory monitoring. Networking of stakeholders at the national level enables overall monitoring and advisory support.

Capacity of duty-bearers in the local communities, local government as well as national level officials is complemented through capacity building activities. Capacity of the COs is built in such a way that they are able to make joint decision with local authorities, mobilize resources, implement local priorities and sustain the result. Capacity of the partners (VC/CC, raiyon/oblast etc.) is strengthened in terms of human resources to implement participatory approach propagated by the Project. Training, exposure visits, dialogues and small grants (for community projects), appropriate institutional mechanisms etc. are used as tools for building capacity.

Appropriate management and information systems (MIS) is established to make the stakeholders directly involved in the process of monitoring and assessment of the Project activities. It includes process monitoring, input monitoring, output monitoring and impact monitoring. Flow of information is bottom-up and participatory.

Sustainability of the systems, institutions (community organizations etc.) and services established at local community level under support of the Project is ensured so as not to loose the principles and value propagated by the Project.

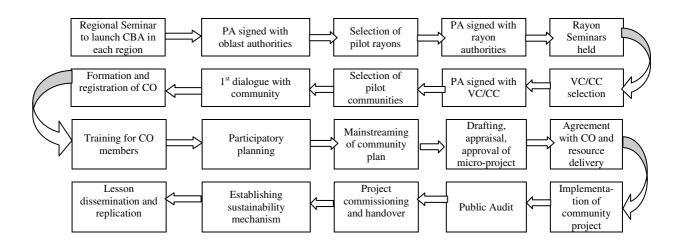

1.2 Project Area

CBA Project works in all oblasts of Ukraine and Autonomous Republic of Crimea covering total of 200 rayons (eight in every oblast in average) and will cover 1000 villages/settlements/cities (five in every raiyon in average) with population less than 10,000 people.

CHAPTER II

PROJECT ACTIVITIES AND RESULTS

2.1.1. Establishment of partnership with regional authorities

Establishment of formal partnership with oblast authorities is considered to be a milestone in CBA implementation. Such agreements are also essential to formalize the role and commitment of the partners (local authorities and UNDP) and to provide an official basis to work with community organizations. Activities of CBA Project in all the regions rely on this partnership which was formalized with 23 oblasts and ARC by signing agreements. In the 2nd quarter, Partnership Agreements were signed with oblast authorities of Odeska and Dnipropetrovska oblasts. As previewed by terms of partnership, premises were allocated by OSA/OC for CBA Oblast Implementation Units/ Community Resource Centres.

2.1.2. Partnership between UNDP and rayons

Selection of pilot rayons and establishment of formal partnership with rayon authorities, through signing of partnership agreement, is considered to be second milestone in CBA implementation. It ensures clear role and commitment of the rayon authorities and provides an official basis to reach village/city councils. To this end, following steps were followed during the quarter.

Since inception, all 200 pilot rayons (and 1 city council) from all the 25 regions of Ukraine were selected for participation in CBA Project. In the reported period, Yampilskyi rayon of Sumska oblast decided to withdraw from participation in the project. It was replaced with Sumskyi rayon, from reserve list.

In the reported period, 10 partnership agreements were signed by rayons of Odeska and Dnipropetrovska oblast and one PA was terminated in Sumska oblast. Totally since inception, 188 agreements were signed by rayons authorities.

2.1.3. Establishing partnership with village / city councils

During the reported period, 149 applications for partnership were received from village/city councils of 15 regions namely AR Crimea, Chernihivska, Dnipropetrovska, Donetska, Kharkivska, Khersonska, Kirovohradska, Kyivska, Luhanska, Lvivska, Mykolaivska, Odeska, Sumska, Zaporizka, Zhytomyrska oblasts.

The team of the oblast community resource centre (OCRC) analysed the information of the applications and information received from the respective rayon state administrations. Based on the analysis, they made a ranking of the participating local councils based on the socio-economic hardship and commitment.

The ranked applicants were discussed in 'village/city council selection committee' meetings and 67 local councils were selected as shown in Table-I. Of them, 27 VCs/CCs were substitutes for those 27 VCs/CCs with whom partnership was terminated because (a) either they rejected to continue cooperation or (b) they did not fulfil their commitments. There still remained 6 VCs/CCs to be substituted.

Thus, net addition of VCs/CCs was only 34.

In all cases, the meeting was presided by CBA focal point of Oblast State Administration. Other participants of the meeting included representatives from regional council, rayon state administrations, rayon councils, and CDOs in the oblast.

Local partners were supportive towards methodology offered by CBA as they recognised its value in the local governance and sustainable development. Their opinions are quoted in Box 1.

| | Cumulative, % | | | 88% | 10% | 2% | | 96% | 3% | 0% |

^{* 27} VC/CC were selected during II quarter as substitute while 6 terminated partnership but remained without substitute

Total number of pilot local councils amounts to 995 since inception of the Project. Among them, 88% are village councils, 10% town councils and 2% city councils (see Chart 1). Regionwise data about selection of village/city/town councils is given in Annex - I.

Box – 1: Opinions of representatives of Local Authorities about CBA Project

"Heads of village councils are not used to be dictated and controlled by local community. They are used to the old pattern where head of village council is the authority. CBA Project forms a new culture at local level, whereby rights and opinions of local community is taken into account by those who are in power".

- O.Sin, Deputy Head of Zaporizka OSA.

"Participation in CBA Project allows to legalize and institutionalize civil initiatives in small settlements, and creates opportunities for improvement of social infrastructure. Successful experience of participation in CBA will open unlimited opportunities for sustainable development of rural communities".

- V.Kruch, Bolgradska RSA, Odeska oblast

"Before CBA project, people tended to raise only personal issues at community meetings. Now they pay more attention and try to solve issues important for the whole village community. I think this is one of the achievements of CBA Project. People think about the interests of their community, rather than their personal".

- V.Sheremeta, Head of Pereyaslav-Khmelnytska RC, Kyivska oblast.

"Development of territories and empowering local communities is the only way to improve economic situation in villages".

- O Ustynenko, Head of Department of Internal Affairs, Khersonska OSA.

"Thanks to CBA Project, I realized that I have an efficient team, with the engineer-constructor, good lawyer, very good specialists who can coordinate projects. Our village council is lucky to have many professionals that others don't have".

- A.Leybzon, Head of Muzykivska village council, Khersonska oblast.

"Working together with community, we move ahead of our time. I believe in the strength and wisdom of the community. Together we realized that something really valuable, something that will stay in the memory of generations can be achieved only when there is mutual support, good will and the conviction that we are doing the right thing".

- G.Naschuk, Hostiv village council head, Ivano-Frankivska oblast

"Participation in CBA Project is the possibility to overcome passiveness, build the dialogue between local authorities and communities and initiate the continuous development process".

- O.Kirienko, Deputy Head of Huliaypilska RSA, Zaporizka oblast

In the 2nd quarter 2009, process of signing official terms of partnership with local councils continued. In total, 56 agreements (net 54 only) were signed between CBA and COs of 11 regions. AR Crimea was the most active in this regard, where 12 partnerships were signed (See Table - II).

Total amount of partnerships signed since inception is 599 of the targeted 1000. Signing of ToPs was fast in majority of the regions. It was slow in 8 regions either because the focus was placed more on community aspects of the Project or the Project launching in the rayon/local councils was slow. Regionwise number of agreements since inception is given in Annex – II.

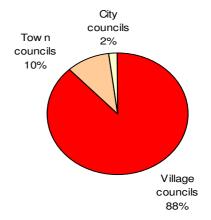

Table – II: Number of ToPs Signed With VCs/CCs During Qr-II

| # | Oblast | No. of ToP |
|---|--------------|---------------|
| 1 | ARC | 12 |
| 2 | Cherkaska | 10 |
| 3 | Chernihivska | 7 |

2.2. NETWORKING AND SUPPORT STRUCTURES

To ensure participatory approach in decision-making, appropriate forum is developed at regional and district level. Furthermore, community resource centres are created within framework of oblast and rayon authorities to keep the forums active and effective. Progress on this subject is described in details hereunder:

2.2.1. Project coordination at oblast level

During the guarter, 8 Oblast Coordination Councils (OCC) were formed in 8 oblasts. Since inception, 18 OCCs were formed, in AR Crimea, Cherkaska, Chernihivska, Ivano-Frankivska. Kharkivska. Kirovohradska, Luhanska, Lvivska, Mykolaivska, Odeska, Poltavska, Sumska, Ternopilska, Vinnytska, Volynska, Zakarpatska. Zaporizka, Zhytomyrska oblasts.

During the quarter, 11 sittings of OCC took place. Meetings of these forums focused on following key areas:

- Declaration of OCC formation and approval of its statute
- Hearing of the report on Project implementation in oblast
- Financial commitments of partners
- Support from local authorities to preparation, review and approval of micro-projects.

Alternative Action and Alternative Action and

Photo - 2. Zhytomyr Oblast Coordination Council and Progress Review meeting under the chair of the Deputy Governor of OSA

An oblast coordination council (OCC) is formed under the chair of head/deputy head of OSA/OC and in participation of representatives of local development forums (LDFs), relevant departments, selected VCs/CCs, COs, NGOs and business sector. An OCC coordinates project financing and implementation and participation of national partners; ensures proper awareness of regional and local governments; provides strategic advice on Project implementation and assists in using Project outputs for national strategy and policy development. See Annex – III (a) and III (b) for regionwise details about OCC activity.

CBA management uses the OCC sitting as opportunity to reinforce partnership with local authorities through joint review of progress of project implementation. In the 2nd quarter, 10 OCC sittings were attended by Senior Programme Manager of UNDP and International Project Manager of CBA Project. For details about review meetings see section 2.7.3 and Annex – III (b).

2.2.2. Project coordination at rayon level

Practical cooperation with rayon authorities continues primarily through the mechanism of Local Development Forums (LDF). These forums are established by a decree of rayon administration in each partner raiyon. They normally consist of representatives of rayon leadership and heads of relevant units, heads of village councils and CO chairpersons. LDF aims to facilitate dialogue, coordination, planning and decision-making at local level between the oblast and rayon authorities and communities for promoting integration and development. Meetings are held regularly to discuss local development issues such as to mainstream community plans, to support community organizations for technical backstopping and resource mobilization implementation, and handover of community projects.

Key areas of discussions at LDFs are as follows:

- Creation of Rayon Community Resource Centre
- Organization of public audit,
- Assist in improvement of the system of local financing and mobilization of financial resources for community projects
- Help in preparing financial reports for the use of 2nd tranche
- Approve Community Development Plans
- Provide help in technical investigation of the constructions, draft necessary documentation
- Help in preparation of cost-estimate documentation for community projects
- Approve micro-project proposals
- Approve replacement of pilot village councils/communities
- Review progress of CBA implementation in the rayon
- Assist in legal registration of CO

During the guarter LDFs were formed in 35 rayons of 9 oblasts.

Since inception, LDFs were formed in 181 rayons, and 339 sittings were held. Details are presented in Annex - IV.

2.2.3. Rayon Community Resource Centers (RCRC)

Photo – 3. Information board in Kreminetskyi Rayon Resource

Rayon Community Resource Centre (RCRC) is established at the pilot rayon state administration to ensure institutional memory, to coordinate CBA implementation in the rayon and to disseminate information on CBA implementation in the rayon. It is run by the rayon focal person. It may assume informal (with low visibility) or formal status (with high visibility) depending upon the situation.

During the quarter 55 RCRCs were formed in 16 oblasts (Table-IV). Since inception, 93 Rayon Community Resource Centres were formed in 21 oblasts. Luhanska and Kyivska oblasts were most enthusiastic in establishing sustainable RCRCs for conducting further community oriented activities. Details about formation of RCRCs are given in Annex - V.

2.3. ORGANIZING LOCAL COMMUNITIES

Following to selection of village/city councils, steps were taken to select the settlement(s) / local community and mobilize them for concrete action under the framework of CBA Project. Since inception, 963 local communities were organised to work with CBA through following process:

2.3.1. Holding VC/CC level seminars

Orientation was organised in the selected VCs/CCs, individually or collectively, to present CBA Project to the council members, VC/CC-executives, active citizens, NGOs and businesses from the locality.

In perspective of the partnership with oblast and rayon authorities, the seminar focused on sensitizing the local representatives with importance of community-based approach to local development and explaining them the relevant procedure and conditions to achieve concrete results. Participation of the oblast and rayon officials in these local seminars reflected their commitment towards citizens' participation in decision-making process and raised effectiveness of the seminar (Table - V).

In the 2nd quarter, 28 VC/CC level seminars were held in 13 regions. About 760 persons participated in the seminars, including 24 focal persons of CBA project from oblast/rayon level. Since inception, 1006 seminars were conducted in participation of about 23 000 persons. Details on VC/CC seminars are given in Annex - VI.

2.3.2. Selection of local communities

Cumulative

Subsequent to the VC/CC seminar, the participants discussed on the comparative situation of the settlements belonging to the council from the perspective of socio-economic hardship facing them e.g. water supply, health services, energy efficiency, environment and school transportation etc. Based on the ranking, one settlement per VC/CC was selected for CBA Project. Alternative arrangement was made to ensure competition and attract the community which was the most willing and committed to apply self-help approach to resolve their problem.

During the quarter, 24 communities were selected for partnership in 12 Oblasts (Table - VI and VII). They were substituted communities, selected instead of those 25 which were too slow in responding to CBA initiatives or which asked for termination of partnership. Besides, 5 new communities were selected in other oblasts making it a net of 4 communities added on the list. Totally since inception, 47 communities were substituted. Cumulatively, the number of pilot communities reached 963 by end of the second guarter, with 467 communities in reserve list (details in Annex – VII).

2.3.3. Formation of community organizations

Photo - 4. First dialogue in a community

Pursuant to the community selection, first dialogues were held with the selected communities to sensitize them about importance of collective effort to resolve local development issues in partnership with local authorities and other development agencies including CBA Project (Box - 2).

During the quarter, first dialogue was held in 32 communities of 13 oblasts. In cumulative term, 1015 first dialogues were held with local communities since inception. With this, the level of first dialogue reached more than 100% of the potential minimum target of 1000 first dialogues. It is because some communities need more than one dialogue before they are able to make up their mind to get organized. Additionally, dialogue is needed in the communities which are to substitute the outgoing communities.

Box - 2. Holding Dialogues with Communities

Dialogue is a two-way transparent communication whereby OIU delivers its messages to the participants with logic, facts, figures, pictures and examples (from elsewhere in the country or abroad) while the audience tries to understand relevance of the message into their lives, process to be followed and seek clarification if required. In the CBA Project, at least 4 dialogues are foreseen:

- **Dialogue I**: is held to familarise the inhabitants regarding importance of 'organisation, capital and skill' and process of forming community organisation (CO) based on the elements of good governance;
- Dialogue II: is held to familiarise the CO-members with the need and process of participatory planning and bottom-up planning process;
- **Dialogue III**: is conducted to familiarize the CO-members with the process of establishing accountability, transparency and participatory monitoring;
- Dialogue IV: is carried out to familiarize the CO-members with the concept and process of sustainability of services and benefits

Summarized data on holding dialogues with local communities is given in Table - VIII.

Table - VIII: First Dialogue with COs

2.3.4. CO formation process and legal forms of COs

As a result of the first dialogues, 65 COs (net 51 only) were formed in the 2nd quarter (see Table - IX) in participation of 19,365 households, which represented 68% of the total households on the CO-territory. The highest percentage of coverage was noted in Khmelnytska and Zakarpatska oblasts (Chart - III). Some of the other regions had reached higher achievement in 2008 itself while some regions were still in the process of community selection and first dialogue. As a result, their progress is seen as lower.

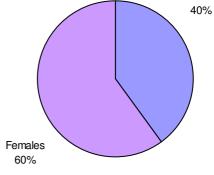

In total, 23,298 persons represented the households to become members of their COs. Of them, 45% were male and 55% were female.

Since inception, 961 CO were formed in all regions of Ukraine except in Donetska. A total of 195712 households participated in the COs.

CO members elected executive (CO-management) team for their respective COs. The CO management team was often balanced in terms of gender with 60% executive members being female (Chart - II). Details on cumulative information on CO formation and other dimensions of COs are given in Annex – VIII.

Chart - II. Gender Balance in CO-MT

Males

In the reported period, 131 Community Organizations got enrolled with VC/CC. Totally, since inception 896 COs enrolled in local government body.

Box - 3. Kindergarten in Bezsaly, Poltavska Oblast to Re-open by the Effort of Local Community

Bezsaly village (of Lokhvytskyi rayon, Poltavlska oblast) was chosen as a reserve community, and got the possibility to participate in Project as a substitute of another community whose participation was terminated due to weak response.

Within a short period of time, local community decided to form the community organization "Molodizhna" (meaning "Youth"), consisting of active and energetic people, mostly young and middle-aged, who got united to solve the problems of their living conditions. While other aspects of village life are satisfactory, community suffers a lot from the absence of a kindergarten in the village. There used to be a big kindergarten on the balance of local collective farm, but as it went bankrupt in the early 90-s, the kindergarten was closed down, and the building was repeatedly robbed, and stands unused until now.

As the birth rate in this and surrounding village is recently growing, there is a need to reopen the kindergarten, but the condition of this building is unacceptable: windows are to be replaced, floor and walls need repair, sewage system does not function properly, there is a water pipe passing by but it was never connected to the kindergarten. The abandoned playground and surrounding territory also needs to be put in order.

Community repeatedly tried to solve the problem, but each time the effort was drowning either because of the lack of resources or the lack of instruments that would keep the community united during difficulties and obstacles. When CBA Project offered both, the methodology of community mobilization and the financial support to their initiative, Bezsaly village got motivated. Community held the meeting, where local informal leader Ms Galyna Shklyar was selected as head of CO. The organization consists of 53 members but many more people tend to attend the CO meetings. Community established a membership fee, which even non-members were donating for the good purpose. "I sometimes go along the street, - says Galyna, - and people ask if we are still collecting money. Of course, we always do! So we gathered enough to bring the electricity in". Especially active in this regard are the pensioners who put in 20-30 UAH.

In order to solve the problems with maximum efficiency and speed, they are discussed at the general meetings. Community defines its problems and priorities, adopts development plan and establishes membership fee.

However, community's path was not always even. They faced the problem with registration of their organization as legal entity. It was the local state registrar office that refused CO's application, and the issue was then raised at Local Development Forum, and in the media. Rayon authorities provided all the necessary support to the community and finally the community finally got the registration in January 2009.

While functional group of "Molodizhna" was preparing project documentation, local activists did not waste time but organized people to clean the surrounding territory and mend the fence of the playground. The leaking roof was also repaired by community members. At CO's cost, the kindergarten was connected to electricity, and all the wiring inside was replaced. Not only members of CO were engaged in the works, but many others possessing necessary skill gladly helped in making the revival of the kindergarten possible. It is with the

help of local citizen that the drainage/sewerage system was retrieved. Documentation and plans of the kindergarten were lost, and there were only hypothetical ideas as of the location of the pipes. It was a local high school pupil equipped with a mine detector who managed to find them. The effort of the united community affected other spheres of Bezsaly village life, when part of the road was repaired at the cost of local citizens.

"Molodizhna" is the first to prepare a complex micro-project proposal which was approved in June 2009. While works are going on, community is successful in engaging other sponsors. Director of local agro-firm Oleksiy Kravchenko led the tractor to the CO to dig a trench for water pipe. At the cost of local budget, gas-fired boiler will be installed. Wooden fence for the playground worth about UAH 30.000 will be donated by a sponsor (local forestry enterprise). Local philanthropist Taras Kutoviy has already donated money to the account of CO, and promised to present a TV and music centre for the kindergarten on the occasion of its opening.

Community of Bezsaly is thankful to the head of Rayon State Administration Viktor Shchurov and Head of Rayon Council Volodymyr Borysenko who supported communities in the struggle for legal registration, and confirmed their commitment to release co-financing for micro-projects.

With the enthusiasm supported by successful project implementation, and with the new skills of drafting and implementing projects, interacting will local and international donors, and with the authorities, Bezsaly community is not going to stop. "Our organization is not limited only to this kindergarten, we'll look for more sources to finance other priorities of our community development plan", says Galyna Shkliar.

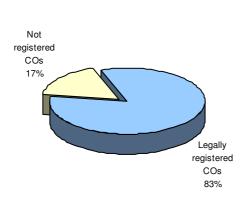

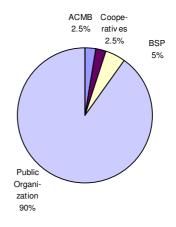

Among 961 COs formed since inception, 795 (83%) are already legally registered (Chart - IV). Legal form preferred by most communities for their organizations is *public organization* (90%). The rest is shared by bodies of self-organization of population (5%), cooperatives (2.5%) and associations of co-owners of multi-apartment buildings (2.5%). Distribution of legal forms is visualized in Chart – V.

Chart - IV: Legal Forms of COs

Chart – V: Registration Status of COs

Note: ACMB - association of co-owners of multi-storey building; BSP - bodies of self-organisation of population

Further details on CO formation in the overall period of Project implementation are given in Annexes – VIII, IX.

2.3.5. Organizational maturity

It is important that the CO must reach certain level of maturity before undertaking development task of significant size. To this end, the COs undertake small social/economic/environmental activities of household and community nature during first few months within their own capacity and within the resources available locally.

Most COs implement self-funded initiatives before they receive funding from CBA for their micro-project. Typical cases of such initiatives are: repair works, cleaning the nearby territory, planting trees etc. See Box - 4 for examples of such initiatives.

Box – 4. Examples of Self-funded Community Initiatives Before Achieving Funding From CBA Project

Chernivetska oblast:

- CO DOHODA (Mikhalcha village, Storozhynetsky rayon) improving lighting in the village
- CO Promin Nadii (Bernove village Kelmenetsky rayon) cleaning of the Dnister river banks.
- CO *Dobrobud* (Ozheve village Sokyryansky rayon) cleaning military cemetery in March 2009 and planting trees in the village in April 2009.
- CO *Perspektyva* (Vashkivtsi village Sokyryansky rayon) construction of a kindergarten building and improvement of street lighting.
- CO *Dobrobud* (Shebutyntsi village Sokyryansky rayon) cleaning territory of newly built local health post; cleaning of public park in the village center in April 2009.

Ivano-Frankivska oblast:

• CO Pikluvalna Rada of Kindergarten Teremok (Chernyatynska village council in Horodenkivsky rayon) - improving energy saving in their kindergarten (before windows replacement was carried out)

Khersonska oblast

- CO from Kairy village Hornostaivsky rayon repairing of a kindergarten and the roof of the local outpatients clinic
- · CO from Heroiske village Holoprystansky rayon repairing of the roof of the village cultural centre
- CO from Rubanivka village Velykolepetysky rayon partially repaired local outpatients clinic.
- CO from Darivka village Bilozersky rayon repaired the inside of a local kindergarten.

Kyivska oblast:

 Community from Shaliivka village Skvyrivsky rayon - gasification of the local health post and repair of floor in the school (with support from RSA)

Zaporizka oblast:

- CO Chapaivske Objednannya Hromadyan from Polohivsky rayon, Chapaivska village council carried out village gasification.
- CO Vladivske Objednannya Hromadyan from Chernihivsky rayon, Vladivska village council cleaned waste dump.
- CO Shans from Velykobilozersky rayon, Chervona village council repair of a part of water pipe
- CO *Trudove Objednannya Hromadyan* from Velykobilozersky rayon, Trudova village council partial repair of water pipe.
- CO Vidrodzhennya from Novomykolaivsky rayon, Pidhirnenska village council replacement of street lighting for energy saving one –

2.4. DEVELOPING CAPACITY

Capacity building is one of the crucial activities of CBA Project. It involves such activities as training, exposure visits, dialogues and various other forms of techniques utilized for skill enhancement/knowledge transfer. The purpose is to enable local communities, local authorities and other partners to adopt and practice the approach promoted by the Project. During the quarter, capacity building activities were focused on communities' representatives and counterparts from local councils. Details on these events are given hereunder:

2.4.1. Training of CBA project staff and national counterparts

(a) **Training for CBA staff.** During the quarter, training was organized for 2 Finance/Procurement Assistants from Rivnenska and Zaporizka oblasts. Topics of training included:

- UNDP/CBA finance rules and regulations
- Book-keeping in Community Organization
- UNDP tendering procedures
- CO financial reporting on MPP implementation

On 28 April training was organized for drivers of all Oblast Implementation Units. Among topics of the training were:

- Safe driving
- UNDP Insurance Policy
- UNDP rules and procedures for vehicle operation and maintenance

(b) Training for national counterparts.

On 1-3 April, 5 representatives of CBA partners³ participated in training on "Decentralization and Effective Local Self-Government" organized by UNDP Municipal Governance and Sustainable Development Programme under support from the Swiss Agency for Development and Cooperation. Training was organized in Yaremche (Ivano-Frankivska oblast). It brought together mayors and representatives of local councils in

Policy Primaries A Primaries and Primaries a

Photo - 5. CBA local partners participating in training on Decentralization and Local Governance

order to raise their qualification in the following subjects: local self-government and decentralization, citizens' participation, strategic planning, operational planning, financial planning, social mobilization and establishment of the quality management system for municipal services in accordance with the international standards ISO 9001:2000.

On 10-16 May, study visit to Czech Republic was organized for a group of Ukrainian authorities of national, regional and local level under support of UNDP/Bratislava Regional Centre and Czech Trust Fund (CTF). The main objective of the study tour was to strengthen capacity of the representatives of Ukrainian authorities to undertake pro-active role in promoting participatory governance, sustainable

-

Heads of Lypovodolynsky Rayon Council (Sumska oblast), Novomyrhorodskyi Rayon Council (Kirovohradska oblast), Sofiyskyi Rayon Council (Dnipropetrovska oblast), Deputy Mayor of Rzyschiv city (Kyivska oblast), Head of Department of Krasnogvardiyskyi rayon, ARC.

energy production and utilization and emergency preparedness. The agenda of the visit successfully combined lectures, field visits and meetings with authorities of national and local level focusing on (a) emergency planning, (b) co-operation between state and local authorities and Dukovany nuclear power plant operators, (c) access to information and (d) involvement of local population in safety arrangement.

The participants greatly appreciated the possibility to meet with their counterparts from Czech ministries, regional administrations and municipalities to learn innovative ways of administration and governance arrangement, and to observe functioning of the Czech system of public administration and governance (Box - 5).

Following eight officials from CBA participated in the study tour:

| 1 | Nadiia Bondarchuk | Ministry of Regional Development and Construction (MRDC) | Deputy Director of Department of Regional Policy |
|---|-----------------------|----------------------------------------------------------------|--------------------------------------------------------|
| 2 | Oksana Vetlynska | Secretariat of the Cabinet of Ministers of Ukraine, | Executive officer of Regional Policy Department |
| 3 | Dmytro Orlov | Poltavska oblast state administration | HOD, international affairs |
| 4 | Viktor Pavlichenko | Cherkaska oblast council | Deputy head |
| 5 | Vasyl Baitsym | Volynska oblast state administration | Deputy Head |
| 6 | Oleg Obushnyi | Chernihivska oblast council | Deputy Head |
| 7 | Mykhailo Popel | Rohatyn rayon council, I- Frankivska oblast | Head |
| 8 | Ganna Yatsyuk | EU/UNDP CBA Project | Monitoring and Communications Specialist |

Box - 5: Lessons Learnt in CTF Study Visit

The best practices and lessons learnt from the study visit to Czech Republic (CR) for application in Ukrainian context are -

- Czech experience can serve as example for further decentralization and strengthening of local government in Ukraine.
- Energy saving and the more extensive use of alternative sources of energy should become a priority and realized in practice. Leading role in this process should be attributed to local governments. But policies should be elaborated at national level to promote and support creation of the same, based on lessons learnt by CR, whose experience should be taken into account so as to avoid mistakes and inefficiencies.
- Czech experience of introduction of biomass boilers for providing energy/heat to local population can be recommended for introduction in pilot communities of the region.
- Experience of EU/UNDP CBA Project in Rohatynskyi rayon (Ivano-Frankivska oblast) which was presented by Head of Rayon Council Mr. Mykhailo Popel during the study visit should be more extensively used in other regions.

2.4.2. Training for COs

CBA Project offers training and orientation courses for CO-members in following areas -

- 1) CO Management;
- 2) Book-keeping in CO;
- 3) Community planning;
- 4) Drafting MPP.

In the second quarter, a series of financial trainings (Box - 6) was organized for CO treasurers with an aim to strengthen their capacity in financial management of CO and facilitate implementation of community projects. Training agenda included the following topics:

- Book-keeping in community organization;
- Financial reporting to UNDP/CBA in micro-project implementation.

In the reported period, 132 trainings were organized for 3056 representatives of COs and local authorities (see Table - X) to familiarise them with the essence of community-based approach. They learned how to create, register and maintain a community organization; how to write and defend a project proposal, and how to implement an initiative to improve the living quality of local community. Of the total persons trained, 60% were females and 40% were males. Also, 24% of participants were from local authorities (focal points from village/city councils) while 76% of them represented COs.

Photo - 7. Training on CO management in Shpolyansky rayon, Cherkaska oblast

| 18 | Volynska | 8 | 168 | 86 | 51 | 82 | 49 | 159 | 95 | 9 | 5 |
| 19 | Zaporizka | 3 | 73 | 21 | 29 | 52 | 71 | 66 | 90 | 7 | 10 |
| | Total | 132 | 3056 | 1225 | 40 | 1831 | 60 | 2309 | 76 | 747 | 24 |
| | Cumulative | 593 | 14069 | 5718 | 41 | 8351 | 59 | 10810 | 77 | 3259 | 23 |

Totally since inception, more than 14 000 persons from local communities and local governments received training and build up their capacity through 593 trainings organized by CBA Project. About 59% of the trainees were female (see Chart VI) and about 23% belonged to local government institutions (Chart - VII). Details about CBA trainings by oblast are given in Annex - X. In general these trainings were perceived as useful by the participants as reflected by their opinion in Box - 7.

Chart - VI: CO Training Participants by Sex

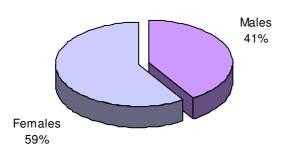

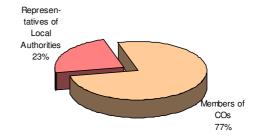

Chart - VII: CO Training Participants by Institution

Box - 6: Modality of training Package for local communities

In order to achieve the goal and create sustainable 1000 community organizations, capable of carrying out projects, local activists need to receive basic training on technical as well as financial issues. Modality of providing these training to communities included organization of a round of technical trainings (by PMU Engineers) and a round of financial trainings (by CBA Finance/Admin Manager and Finance Assistants) with further decentralization through targeted visits of PMU specialists and consultations provided by Community Development specialists on a regular basis.

Schedule of Finance Trainings Held in 2nd Quarter

27 April - Lviv and Ternopil COs

15 May - Fastiv, for Kyiv oblast COs

4 June - Kharkiv;

5 June - Luhansk;

11 June - Zhytomyr;

12 June - Volyn;

13 June - Rivne;

19 June - Cherkasy and Vinnytsya;

20 June - Kirovograd;

25 June - Dnipropetrovsk;

26 June - Zaporizhya and Khmelnytskyy;

29 June - Uzhgorod;

30 June - Ivano-Frankivsk

Photo - 8. Training on financial management for COs in Rivne

Box - 7. CO's Feedbacks on Trainings

- «Trainings in «Effective management of community organization», «Participatory Planning» and «Preparation of micro-project proposals» were especially interesting. At these seminars we received methodological recommendations how to manage our organization, form community budget, prepare reports, elaborate micro-project proposals and execute necessary documents» Vodyanchuk V.I., Head of CO Pikluvalna rada of kindergarten Zirochka, Horodenkivska town council, Ivano-Frankivska oblast
- «I have received a lot of useful information at trainings in «Participatory Planning» and «Preparation of micro-project proposals» that helped me in solving problems with work with community and in my further work with documents in the framework of the Project». Vaselynchuk Z.Z., head of CO Dobrobut, Ivano-Frankivska oblast
- «All trainings were interesting and useful. But I learnt the most at the training in strategic planning and community development. I always try to study and use possibilities to do it. It would be nice if trainings were held not only in rayons for CO leadership, but directly in villages for more CO members. We are interested in having business in a village and in attracting additional resources for the community» Halyna Biichuk, CO *Roksolana*, Dovhalivka village, Bilohirsky rayon, Khmelnytska oblast
- «All trainings were interesting, it is impossible to choose one, as all of them are inter-connected. We have learnt a lot about possibilities of communities, believed in possibilities». Valeriy Poltavchenko, CO Dovira, Honcharivka village, Bilhorod-Dnistrovsky rayon, Odeska oblast
- «...The most interesting trainings were «Management and planning of community activities» and in frames of the training «Preparation of MPP» information about license receiving procedures, approving of project documents, registration of land allotting, etc. As necessary information is almost inaccessible, we are grateful to Zaporizky OIU for the experience gained...» Perebyinis Lidiya Mykolaivka, Head of Chapaivske obyednannya hromadyan, Zaporizka oblast
- «I have gained clear idea about the amount of documents necessary for carrying out works on the project; trainings have helped our public organization to improve knowledge of preparing micro-project proposals, participatory planning and effective community management». Head of CO Vodyansky vodohrai, Vodyane village, Petrivsky rayon, Kirovohradska oblast

2.5. COMMUNITY DEVELOPMENT PLANS (CDP)

CBA aims to improve living condition of local communities and strengthen participatory governance. For this purpose, it supports participatory planning in the community to enable them to identify local needs; prioritise them based on such criteria as equity, do-ability, sustainability and cost sharing; and get the community priorities mainstreamed into local development plans through joint decision-making process.

2.5.1. Preparation and mainstreaming of community development plan (CDP)

185 second dialogues were conducted during the quarter to initiate participatory planning in the COs. High level of 2nd dialogues took place in Cherkaska, Dnipropetrovska, Kharkivska and Zaporizka oblasts. For other regions, either this stage was already over or just begun (as reflected in cumulative column of Table XI). In regions like Donetska, the stage is yet to come. In total, 86% of 2nd dialogues were held against the minimum potential target of 1000 (Table - XI):

Table - XI: Second Dialogue with COs

| # | Oblast | During Q-II | Cumu- lative | % of the Target |
|----|------------------|----------------|-----------------|-----------------|
| 1 | ARC | 5 | 40 | 100.0 |

Box - 8. Organized Communities Can Do Much More

Community organization "Development Agency of Stuzhytsia Territorial Community" created under support of CBA Project on 14 November 2008 attracts extra financing from donors for parallel initiatives.

CO decided to develop touristic routes in order to attract more investment to the village and for the benefit of the community. This young organization already managed to complete their first initiative "Stuzhytsia - a pearl of Ukrainian Carpathians". In the framework of this initiative, a touristic route was developed encompassing interesting and unique natural and historic sites of the village. This route is marked throughout the village, and the information brochures are printed. Information about Stuzhytsia and its innovation was widely disseminated through the media and in the internet. Banner was produced and installed at the entrance of the village to advertise touristic potential of the locality and denote major touristic attractions. In the framework of this project, mineral water source and other natural phenomena were examined.

Cost of the project amounted to UAH 45000; it was carried out on the cost of community members under support of scientific institutions and local sponsors. Realization of this project will allow to attract about 2000 tourists and will create additional jobs in the village.

Development of tourism in the village is hindered by the absence of street lighting, this is why community prioritized this problem and suggested it as their initiative for micro-project proposal within the framework of CBA project. Total cost of the project will be UAH 132934.

Photo – 9. CO discussing Community Development Plan, Kruty village of Kodymskyi rayon, Odeska oblast

During the quarter, 220 COs defined priorities of local infrastructure development by compiling community development plans as given in Table - XII. Most communities prioritized energy saving as top priority (45%), followed by medical services (29%) and water supply (21%) as their primary need. Less pressing was the problem of local transportation (3%) and environmental problems (2%). Distribution of priorities among all CDPs of 2nd quarter is visualized in Chart - VIII.

224 COs submitted their priorities to their respective VCs/CCs for approval. Plans concurred by VCs/CCs were then discussed at LDF meetings. Of all the plans discussed, 197 plans were approved by LDFs and recommended for financing (Chart - IX).

^{* 219} only as one CDP was cancelled due to termination of the CO.

Chart - VIII: Priorities of CDPs in II Quarter 2009

Chart – IX: Share of CDP Reviewed and Approved by LDF in II Quarter

Since inception, 871 CDPs were developed by local communities. According to the existing trend, most of them prioritize energy saving (53%), healthcare (22%) and water supply (19%). 783 of these CDPs were reviewed at LDFs and 636 of them were approved for funding i.e. mainstreamed into local development plan. Details are given in Annexes XI and XII.

2.5.2. Micro-project proposals

Upon approval from LDFs, COs prepared and submitted 190 Micro project proposals (MPPs) to CBA/PMU in 2nd Quarter 2009. The received MPPs went through appraisal, review and approval process at CBA/PMU. A total of 142 micro-project proposals were approved by CBA Project in 2nd quarter. Of the approved MPPs, 57% belonged to energy saving, 20% belonged to health purpose, 18% belonged to water supply and 5% – to local transportation (Table – XIII).

Table - XIII: Number of Micro-projects in II Quarter 2009

Since inception of CBA activities, 247 micro-project proposals were approved by CBA. Most of them are aimed at energy saving (58%) and healthcare (20%). Details on typology of community micro-projects since inception are given in Chart - X. Oblastwise distribution of projects by typology is available in Annex XIII.

Chart - X: Micro-projects by Typology Since Inception

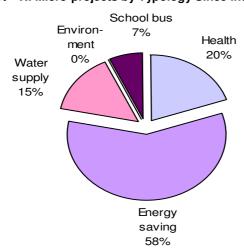

Photo - 10. CO leadership signing agreement with CBA Project (Radisne village, Odeska oblast)

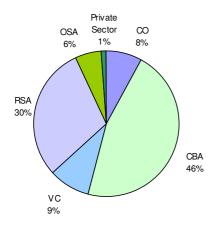

Total cost of all the 247 approved project is about UAH 34.9 mln with an average cost UAH 141 261.5 per micro-project. According to the cost-sharing arrangement, micro-projects will be co-funded by local budget (45%) with 9% contribution from village/city budget, 30% from rayon budget and 6% from oblast budget. Average input of CO is 8% and that of CBA share constitutes 46%. Moreover, communities managed to attract private sector to co-fund their initiatives (1%). Details are given in Table - XIV and Chart - XI.

Chart - XI: Micro-projects Cost-sharing

Box - 9: Unified Effort Brings Result

In Zhytomyrska oblast, Community of Vysoke village (Chernyakhivskyi rayon) approved Community Development Plan which prioritizes improvement of medical service delivery. Once organized, community decided to look for opportunities. It was agreed on the meeting to solve the problem of repair works, replacement of windows and doors within CBA micro-project, while purchase of new equipment would be financed from rayon budget.

Community also referred to the Ministry of Healthcare with a request for a new ambulance car. The application was based on the approved Community Development Plan and community's cooperation with CBA Project was quoted. The result of CO's effort did not wait long, and now the ambulance is already driving through the streets of Vysoke village helping those in need. Community takes pride in this achievement and considers it a proof that a united effort brings result.

2.5.3. Beneficiaries of community projects

It is expected that at least 223,202 persons will benefit from the realization of the 247 initiatives on improvement of living quality. Of them, 45% are males, 55% are females. Distribution of beneficiaries by gender and type of project is presented in Chart - XII and Chart - XIII. Genderwise and sectorwise details of beneficiaries are given by region in Annex – XIV and Annex - XV.

Chart – XIII: Beneficiaries of Community Projects by Sex since inception

Box - 10. Voice of Local Community: Changes Brought About by Participation in CBA Project

Photo - 11. Children can now play in warm rooms of their kindergarten, Ivano-Frankivska oblast

Participation in Community Based Approach to Local Development (CBA) Project teaches rural residents not only professional skills (work with drawings, work on computer, etc.), but also teaches to unite around village and community problems. And one of good examples of such a unity is laying light in Mikhalcha village at the expense of the community, which was carried out beyond the Project realisation.

- Omelyan Tushynsky, Deputy Head of public organization DOHODA, Mikhalcha village, Storozhunetsky rayon, Chernivetska oblast
- «The community felt its strength in unity, solidarity, felt mutual help from oblast and rayon state administration, rayon council and made sure in the rightness of its choice of village head H.Yu. Naschuk.
- Melnychuk M.M., Head Master of Hostiv secondary school, member of public organization Dobrobut, Ivano-Frankivska oblast
- «The community has been organized and mobilised, is assured of itself, shows the initiative, can and wishes to work in future. And we still have a lot of plans…»
- Nikiforuk N.Yu., member of CO Pikluvalna rada of kindergarten Zirochka, Horodenkivska town council, Ivano-Frankivska oblast
- «We have started to look at our village in a new manner. Ways to solving problems have changed completely. Instead of 'we should be given' we started to think 'what we can do'; it is observed among villagers of 30-50 years of age».
- Mykhailo Shevchuk, CO Dzherelo, Ulashanivka village, Slavutsky rayon, Khmelnytska oblast
- «The Project has given a possibility to unite people more, our community is quite active, but we did not know a lot, and now we do know that we can rely not only on ourselves, that there are programmes to help communities, that it is possible to launch cooperation with rayon authorities and get assistance from it»
- M.D. Okhtanenko, Head of CO Kairy village (Hornostaivsky rayon, Khersonska oblast)

People became more open. They began to show interest in what is happening and with time they started to trust the CBA Project.

- Valeriy Poltavchenko, CO Dovira, Honcharivka village, Bilhorod-Dnistrovsky rayon, Odeska oblast
- «...We already think about future, we plan to develop Community Social Center, to put in order a dump, to develop youth movement...»
- Vasylenko Oleksandr Petrovych, head of CO Komysh-zoryanske obyednannya hromadyan, Zaporizka oblast
- «Since inception of the CBA Project on our territory the village as though has revived everybody is expecting changes for the better. Our project is

Photo – 12. Young generation will benefit from high level of medical service provision in Krasna Polyana where local ambulatory was repaired and equipped within the framework of CBA Project

connected with ecology, so villagers are well informed about activities that out community does in frames of the project *Clean Environment*; it even seams that there is less scattered dust on a dump. To reach high European ecology standards, villagers try to adopt and correspond to them, changing personal attitude and aspiring to a civilised way of domestic wastes utilization».

- Stepan Karpuk, Head of CO Smolinsky aktyv, urban village Smoline, Malovyskivsky rayon, Kirovohradska oblast

2.5.4. Implementation of micro-projects

Financing for micro-project is taken as an opportunity to establish environment of transparency and accountability at local level. Upon approval of the micro-project, an agreement is signed between UNDP and the beneficiary CO for implementation of the micro-project to be done by the CO under a set of terms and conditions that are formed to enhance transparency and accountability. Often media and local authorities are involved while conducting the agreement and third dialogue is held in the community for this purpose. Concept of the third dialogue is given in Box - 2.

During the reporting period a total of 146 third dialogue was held while financing the micro-projects (Table - XV), which is 12.4% of 1175, the minimum potential third dialogues.

Table - XV: Third Dialogue with Cos

Box - 11. Voice of Community: Main Difficulties in Preparation and Realization of Micro-projects

- «The main difficulties in preparation and realization of a micro-project are connected with collecting money to Community Project Fund. To solve this problem we had to work much with the community»
- Kizan H.P, Head of CO Vilkhova, Ivano-Frankivska oblast
- «It was the first time when we prepared and realized a micro-project, so we had some difficulties with it. Participation in trainings, organized by community development officers, their recommendations helped to cope with the task of the community»
- Kisilyuk H., member of functional group of CO Pikluvalna rada of kindergarten Zirochka, Horodenkivska town council, Ivano-Frankivska oblast
- «There is a problem with financing form the budget, we hoped for the rayon, but at the moment it cannot help, we work with people, inform them, work with deputies, but there are still problems, and they should be solved...».
- L.I.Hanzha, Head of community organization Novovoznesenske village (Vysokopilsky rayon, Khersonska oblast)
- «It is difficult for us to co-finance the project, it was Village Council who had to do it and it did not provide for funds. But we have to go on people come and bring money and it means that they trust us»
- H.M. Zelenska, head of kindergarten Vyshenka, member of territorial community Daryivka village, Bilozersky rayon, Khersonska oblast
- «Problems are mainly organizational: general meeting, collecting money... But we cope with them! We inform people more, cooperate with Village Council».
- Valeriy Poltavchenko, CO Dovira, Honcharivka village, Bilhorod-Dnistrovsky rayon, Odeska oblast
- «...The main problem in preparation of MPP is absence in the community of qualified experts in office equipment, construction norms and others, but the community with the assistance from rayon governmental bodies and Zaporizky OIU overcomes all difficulties...»
- Mahazeischykov Andriy Mykhailovych, Head of Zelenivske Obyednannya Hromadyan, Zaporizka oblast
- «Requirements to tender documentation are very rigid. First, it is really difficult to find three contractors, who have necessary licences, certifications, as all of them, especially it concerns our project, are situated on the territory of other oblasts. Second, the amount of tender documentation is quite big and requires certain knowledge and experience in its executing. Specialists from Rayon State Administration and Village Council help us to overcome this difficulty».
- Alla Ihnatenko, Treasurer of CO Smolinsky aktyv, urban village Smoline, Malovyskivsky rayon, Kirovohradska oblast

2.5.5. Completed micro-projects

During the quarter, 7 community micro-projects were completed de-facto i.e. all the works envisaged by project documentation are accomplished. De-jure projects are considered completed upon release of the 3rd tranche. During the quarter, one project was completed (school bus). Totally since inception, 7 community projects were completed. (Annex - XVI)

Box - 12. Opinion of Communities Which Completed Their Micro-projects

- «All the best to children» this motto was made a reality in our kindergarten *Zirochka* with implementation of micro-project "Replacement of windows and front door in kindergarten Zirochka Building 1". As we can see the insulation is perfect, design is very nice; windows are simple and easy to use. This is an important factor for energy saving. It is warm and light in the premises now»
- Basyuk O.O., member of CO Pikluvalna rada of kindergarten Zirochka, Horodenkivska town council, Ivano-Frankivska oblast
- «The community has solved a pressing problem of energy conservation at school. Now ugly autumn and winter weather is not a problem. Thanks to the Project it will be warm and cozy in classrooms this winter!
- O.Sukhorebsky, Head of CO Pikluvalna rada of Chenykiv secondary school, Ivano-Frankivska oblast

Box - 13. Community of Krasnaya Polyana Takes Pride in Their Newly Equipped and Repaired Ambulatory

On 23 April 2009 first local community project was inaugurated in Krasna Polyana Village of Krasnohvardiysky rayon, ARCThe community invited representatives from local authorities, Verkhovna Rada of ARC, Secretariat of the Cabinet of Ministers of Ukraine and UNDP Managers to attend the inauguration ceremony.

The guests were impressed with the active position of community members who enthusiastically presented the whole process of micro-project implementation, beginning with the very first steps in self-organization, project preparation and up to its completion. Like most population of rural areas, Krasna Polyana villagers had a vast number of problems: terrible condition of local outpatient clinic, unavailability of kindergarten, problems with field irrigation even though there is Dnipro canal just nearby.

"We decided to do something about it, because waiting for help can last long," says head of local community organization Borys Zahirny. "So we

gathered together, decided to create a community organization and finally solve all our problems, one by one. Villagers voted that overhaul and purchase of new equipment for local outpatient clinic is the most pressing problem that needs to be solved in the first place. Community organization then started to collect membership fees, referred to village head for support and started cooperation with CBA Project."

CBA Project team helped to get organized and provided a series of trainings on organizational and financial issues, as well as on preparation of project proposals and project implementation. This was a vital factor that favoured formation and maturity of the community organization.

Head of functional group, who took care of the project implementation process, said that the biggest obstacle at the very beginning was disappointment and passivity of people. "It was very difficult to convince people in their strength, and that we are able to implement such a project. First funds were raised, and invested. People then realized that a lot depends on their personal participation and started to work more enthusiastically. For instance, after the end of working day, local men were busy purchasing and covering linoleum, villagers made an asphalt path in front of the entrance to the clinic. During this period, our community gathered and invested more than UAH 12 000."

Village council head supported community initiative and facilitated allocation of about 70% of project cost village budget. UAH 35 000 were given from rayon budget. The CBA Project committed about UAH 45 000 used for purchase of medical equipment and partially for repair works.

Local outpatient clinic staff proudly demonstrated repaired surgeries and new equipment that will make provision of medical services quicker and of better quality. Clinic provides medical services to people from 8 villages of Petrivska v/c. For example, now people can make all the necessary tests urgently and come to rayon hospital physicians only to get diagnosis and recommendations.

Chief doctor of Krasnohvardijsk rayon hospital Mykola Vokhmintsev mentioned: "This outpatient clinic was in terrible condition: it was cold, dark and very humid in it. People used to freeze here in a few minutes! We are grateful to medical staff who resisted and remained to work here despite terrible conditions, because many physicians simply resigned, and now the problem we have is shortage of qualified medical personnel. But we hope that now there will be numerous professionals willing to work in such an exemplary clinic. Moreover, village head promised to help and guarantee a decent salary."

Having completed such an important project, *Vidrodzhennya* community organization is going to continue its activities. At a recently held meeting, villagers discussed further priorities of their village development. Votes are divided between re-establishment of a kindergarten and establishing of irrigation system. Given such a split, community decided to collect and count votes in written form.

CO treasurer Valentyna Isupova explained that the community decided to regularly collect membership fee of 3UAH. per month, of which 50 kopecks will go to a special fund to sustain the outpatient clinic in future, i.e. to purchase medicines, equipment, stationary etc.

2.6. COMMUNICATION AND VISIBILITY

Communication, visibility and public relation (PR) activities are designed as a part of Project implementation strategy with a purpose to maximize transparency about the Project activities and to lobby for the cause it aims to promote. Specific activities include media events, media coverage, web portal, communication dissemination, visibility tools etc.

During the quarter, wider public and potential participants were familiarized with Project activities and plans through local media and CBA web site. Visibility of EU and UNDP was assured by each of communication activities. Details of the activities are described below:

2.6.1. Media coverage and media events

In the 2nd quarter, media events changed both in quality and quantity. Alongside with events around launching project activities at different levels and signing partnerships that continued in many regions, there were more targeted media events aimed at familiarizing local journalists with process and results of CBA activities. Among such events are signing of partnership agreements, donor/partner visits, project opening/launching events, joint reviews of CBA progress by local authorities and Project management.

Photo - 15. Senior management of CBA Project interviewed by Odessa regional media

Photo - 16. Mr. Jens Wandel, Deputy Director of UNDP, Regional Bureau for Europe and the CIS interviewed by local journalists during his visit to Yerkivtsi village, Kyivska oblast

During the reporting period, 204 media coverages were registered across Ukraine, including printed and electronic editions, radio and TV reportages (Table - XVIII, Chart XIV). Leading oblasts in this respect were Rivnenska and Ivano-Frankivska oblasts. Oblastwise distribution of media coverages is given Chart - XV.

Box – 14. Project Inauguration in 2nd Quarter

Following micro-projects went through inauguration during 2nd quarter upon their successful completion:

15 April - Inauguration of School bus in Antoniny, Khmelnytska oblast.

23 April - Opening of ambulatory in Krasnaya Polyana village, Krasnogvardiyskiy rayon, ARC (see Box – 13).

23 May - inauguration of school bus for Vyshgorodok community, Ternopilska oblast (see Box - 14).

Chart - XIV. Media Coverage in 2nd Quarter 2009 by Types of Media

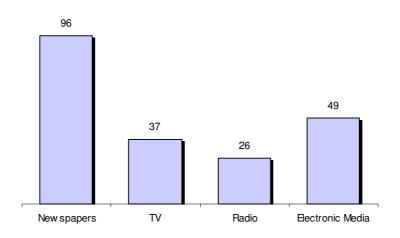

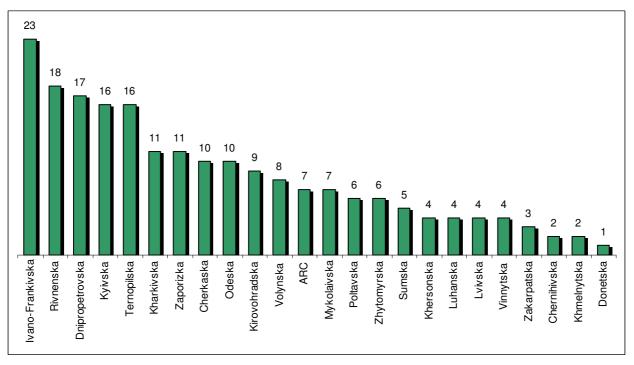

Chart – XV. Media Coverage of CBA Activities During II Quarter 2009

Since inception, media coverage of CBA activities amounts to 1209. Information about total media coverages per region are is available in Annex - XVII. Full list of media coverages with brief summaries is available in Annex - XVIII. List and short summary of news publications on partner's web-sites are given in Annex - XIX.

Box - 15: Pupils Gets Easy Access to Their School

On 23 May 2009, the community of Vyshgorodok (Ternopilsky district, Ternopil region) celebrated the completion of their micro-project "School bus". On this occasion, community organization "Nadiya" decided to invite the high level delegation of donors and local partners to participate in the opening ceremony.

Project opening coincided with Europe Days in Ternopil, and the delegation of high level officials from international organizations and foreign missions to Ukraine gladly accepted community's invitation and came to observe the example of efficient use of donors' funds when multiplied by the effort of local community and cooperation from local authorities. Local Community open-heartedly welcomed the guests among which were: Mr.Oleksiy Kayda, Head of Regional Council, Mr.Ercan Murat Officer-In-Charge, UNDP Ukraine, Ms.Joanna Kazana-Wisniowiecka, Deputy Resident Representative UNDP Ukraine, Mr.Jose Manuel Pinto Teixeira Head of the Delegation of the European Commission to Ukraine and Ambassadors of Great Britain and Sweden.

Congratulating the community, Mr. Ercan Murat mentioned that UNDP Ukraine acts with orientation to the human component, such as people's needs, living conditions, expectations about education, social and medical services and life expectancy. "People should be in the centre of development processes, they should decide what they need, like this particular community did when they defined the school bus as their priority".

Mr. Jose Manuel Pinto Teixeira pointed out that "there is no better way to celebrate Europe Day than to come to this village and participate in the ceremony of inauguration of this Vyshgorodok community school bus. This illustrates most vividly the dimensions of cooperation between the European Union and Ukraine".

The project of purchase of the news school bus was implemented with support of EU/UNDP CBA Project (UAH 77 878), Ternopil oblast administration/council (UAH 25 000), Lanovetska rayon administration/council (UAH 52887) and village community organization "Nadiya" which contributed with UAH 7790. Community composed of 255 members started working on this micro-project in August 2008 which was defined as priority by the majority of community members. The school bus will benefit 42 families of 8 villages whose children will now have easier and more comfortable way of transportation to local school.

2.6.2. Participation in external events

With a view of disseminating information about CBA Project among interested target groups, its representatives took part in external events to present the initiative and its modus operandi. In the reported period, Project was presented at 57 external events, including conferences and Europe Days in Zaporizhia and Dnipropetrovsk. CBA Community Development Officers in Dnipropetrovska oblast also participated in 'discussion tents' of Europe Days where they answered the queries of the public about CBA Project and its activities.

Photo - 18. CBA tent at Europe Day in Zaporizhia

2.6.3. Issuing regional newsletter

In order to duly and timely inform local partners/stakeholders as well as participants about progress of CBA activities in the region, a practice of publishing regional newsletters is in place. In the 2nd quarter, OIUs drafted 43 issues of regional newsletter, which was printed and disseminated both electronically (1842 copies) and printed copies (8547 copies), according to the distribution list including oblast administration and council, rayon administration and councils, village councils, local communities, local media and NGOs (see Table - XIX for details). Newsletters were also placed on CBA web site.

Table - XIX: Publication and Dissemination of Regional Newsletters in II Quarter 2009

| | Oblast | Newsletters per II quarter 2009 | | | |
|----|------------------|---------------------------------|-------------------------------------|--------------------------------------|--|
| # | | No. of issues published | No. of copies printed & distributed | No. of copies sent electronically | |
| 1 | ARC | 2 | 125 | 0 | |

| 25 | Zhytomyrska | 1 | 250 | 25 | |
| | Total | 36 | 9027 | 1567 | |
| | Cumulative | 112 | 22899 | 8116 | |

Information about issuance of regional newsletters since inception is available in Annex - XX.

2.6.4. Informing wider public about CBA activities

(a) Information boards proved to be an efficient tool of communication of information to local citizen and authorities and ensuring transparency of CBA process. Circular was elaborated and distributed to OIUs, containing recommendations as per installation and content of information boards in oblast and rayon level Community Resource Centres (CRC), but also in village councils and in CO offices (whenever possible).

Photo - 19. Memory board on Local Health Post in Zhytomyrska oblast

Photo - 20. Information board displaying stages and documentation in Zaporizhia Oblast Resource Centre / CBA Implementation Unit

- (b) Database of CBA pilot communities and approved micro-projects was elaborated and placed on web site. Through this database, it is possible to retrieve each CO profile and all the information about micro-projects (description of the project, cost-sharing arrangement, timeframe, contacts of responsible parties).
- **(c)** Visibility of partners is assured by project plaques (temporary) and signboards (permanent) which are produced for each community project site.

2.7 ADVISORY AND MANAGEMENT

Various activities were carried out during the reporting period for effective operation of the Project activities. These activities are reflected in terms of administrative and financial management, coordination arrangement, and monitoring, advisory support and resource mobilisation as described in details hereunder.

2.7.1 Financial delivery

Project expenditure during the quarter reached a total of US \$ 602 920 which was 5.8% of the budget available during that time (Table - XX). Major achievement took place in the area of partnership establishment and project management followed by training and community projects.

| SN | Key Activities | Budget | Proj | ect Expendi | ture | Balance | Delivery |
|-----|------------------------------------------------------------------------------------------------------------------------------|----------|-------|-------------|-------|---------|----------|
| 0.1 | noy nounded | Daugot | Q1 | Q2 | Total | Daranco | % |
| 1 | Training of CBA Project staff and national counterparts on community based approach, project strategy and methodology | 149,2 | 11,1 | 26,0 | 37,1 | 112,1 | 25% |
| 2 | Establish mechanism of participatory planning process at local and regional level | 46,0 | 0,0 | 0,0 | 0,0 | 46,0 | 0% |
| 3 | Support COs for sustainable management and implementation of self-help initiatives (including seed grants) | 8 223,0 | 62,6 | 190,2 | 252,8 | 7 970,2 | 3% |
| 4 | Establish partnership with oblasts & raiyons administrations, councils and other local stakeholders (including LDF meetings) | 246,7 | 33,1 | 67,2 | 100,3 | 146,4 | 41% |
| 5 | Effective Project Management | 1 633,2 | 255,9 | 311,9 | 567,8 | 1 065,4 | 35% |
| 6 | PR, Communication and Monitoring Activities | | 3,3 | 7,7 | 10,9 | 57,6 | 16% |
| | TOTAL | 10 366 6 | 366.0 | 602 9 | 968 9 | 9 397 6 | 9% |

Table – XX: Financial Devilery by 2nd Quarter (in US \$ '000)

2.7.2. Time management

Nation-wide experience of CBA implementation manifests differences between oblasts in terms of time taken to complete each stage of Project implementation. Analysis of time management is given below, indicating time taken in each region to establish partnership, to mobilize communities, to draft and approve micro-project proposals, receive and spend tranches.

2.7.3. Monitoring and review

In order to monitor the progress and quality of CBA process, CBA/PMU Community Development Specialists visited OIU, met local partners and communities, visited project sites. During the quarter, 10 such monitoring visits took place as shown.

One of the objectives of CBA Project is to integrate its methodology in the national process through building capacity of the national partners. It requires that the national partners understand, appreciate and own the process. Joint Review Meetings of CBA implementation in the region could be considered as indicator towards this direction. During the quarter, 10 Review Meetings were held together with oblast authorities. Agenda of such meetings included:

- CBA progress by rayon focal points;
- discussion on challenges and possible solutions;
- strategy for timely completion of project activities;
- elaboration of joint resolutions of key issues.

Details about meetings and summary of recommendations are given in Annex - III (b).

Regional stakeholders may independently review progress of CBA activities in the region, for this the mechanist of Oblast Coordination Council may be used. For details please see chapter 2.2.1.

⁻ event not occurred yet

2.7.4 Manuals

In order to ensure that community mobilization process as well as microproject implementation are taking place according to CBA methodology, and in order to provide additional guidance support to community organizations, 2 manuals were printed and disseminated through community organizations:

- Manual for Community Organizations (2500 copies)
- Technical Manual (1500 copies).

^{*} data is not available

^{**} Day of regional seminar is the starting point and each subsequent action point is counted from the day of previous action;

^{***} There is overlapping between actions due to simultaneous undertaking of activities. Total number of days, therefore, will be less than shown here.

2.7.5. Donor/partner visits

As CBA progress evolves, the interest of partner agencies and donor increases to observe the efficiency of its implementation. In this context, 6 donor/partner visits were organized during the quarter:

Photo - 21. Officer-In-Charge of UNDP Ukraine, Head of EC Delegation and EU ambassadors visit Vyshgorodok community of Ternopilska oblast

Photo - 22. Head of EC delegation and EU ambassadors hosted by Vodiane community, Dnipropetrovska oblast

Photo – 23. Mr.Jens Wandel and Mr.Ercan Murat meeting oblast authorities of Luhansk

- (a) On 23 April, Mr.Volodymyr Vitka, representative of Secretariat of the Cabinet of Ministers of Ukraine, Department of Regional Policy visited CBA community of Krasnaya Polyana (krasnogvardeyskiy rayon of ARC) and attended opening ceremony of local ambulatory (see Box 13 for detail).
- (b) On 23 May, a delegation composed of UNDP Officer-In-Charge, UNDP Deputy Resident Representative, Head of the Delegation of the European Commission to Ukraine and Ambassadors of Great Britain and Sweden visited inauguration of community project "School Bus" in Vyshgorodok village, Ternopilska oblast.
- (c) On 24 May, UNDP and EC Delegation senior management visited CBA Kysylyn village, Volynska oblast to meet and interact with local community and observe the status of their microproject implementation.
- (d) On 29 May, Head of EC Delegation to Ukraine and representatives of British, Hungarian, German and Polish visited Vodiane village, Dnipropetrovska oblast in order to meet the CBA pilot community and interact with them on the subject of their involvement with CBA Project.
- (e) On 18 June Mr. Jens Wandel , Deputy Director, UNDP Regional Bureau for Europe and the CIS and Mr.Ercan Murat, Officer-In-Charge, UNDP Ukraine visited Pereyaslav-Khmelnytsyi rayon to (a) hold the meeting with rayon authorities and (b) to visit Yerkivtsi village, to meet and interact with community organization and observe their project site.
- (f) On 20 June, Mr. Jens Wandel, Deputy Director, UNDP Regional Bureau for Europe and the CIS and Mr.Ercan Murat, Officer-In-Charge, UNDP Ukraine visited Luhasnka Oblast Implementation Unit/Community Resource Centre of CBA and held meetings with oblast authorities to discuss progress and perspectives of community based projects in the region.

2.7.6. Additional activities

Knowledge Transfer: Support was provided towards promoting community based approach to local development in Ukraine through academia. IPM, Jaysingh Sah, presented a paper on this subject in the workshop organised jointly by UNDP/MGSDP and Academy of Municipal Administration.

Participation in EDM Project: On 6 April 2009 the selection committee assessed 24 applications of the 2nd round participants of all-Ukrainian competition *Every Drop Matters* held by UNDP Ukraine and trademark *Bonakva*, and determined the winners.

According to the criteria mentioned below 14 projects were chosen from following regions: Luhanska (2), Donetska (1), Mykolaivska (2), Kirovogradska (1), Vinnytska (1), Sumska (1), Ternopilska (1), Ivano-Frankivska (1), Chernigivska (1), Zhytomirska (1), Rivnenska (1) and Lvivska (1).

CHAPTER III

LESSONS AND FUTURE OUTLOOK

3.1 Stocking the Experience3.2 Outlook for future

3.1. STOCKING THE EXPERIENCE

Following lessons were learnt during the quarter in course of CBA implementation:

- Oblast authorities are positive to community needs and are willing to supplement with additional fund to be utilized for implementation of community priorities;
- Value of community resource centres is being recognized by oblast/rayon authorities as reflected by increasing demand for strengthening of these centres;
- Technical departments of rayon/oblast are supportive to assist communities in designing/preparation of technical documentation;
- LDF is effective in mainstreaming of community plans and mobilization of local resources (financial as well as human)
- OCC is effective in monitoring of CBA implementation in the oblast, coordination of stakeholders and mobilizing oblast level resources in favour of community based development efforts;
- High level of interest and appreciation has been received from local, district and regional authorities for the results obtained;
- Some regional partners are considering local policy change to make CO- financing possible from state resources:
- Successfully accomplished projects have served as a motivating factor for the communities to look for opportunities to implement their next priority;
- With appropriate advisory support, it is possible to maximize community participation in the process of local development;
- Mindset of local authorities is changing in favour of recognising community priorities as a part of their development plans. However, it will take time for this change across the project area;
- Guidance and support of national partners has proved effective in motivating local stakeholders;
- Physical participation of local/regional authorities in CBA implementation process and political can reach development tasks independently and quickly.
- Rural communities need constant attention and even small stimulating 'victories' for effective unleashing of their potentials.
- In the process of the Project implementation, it appears that there is inadequate institutional structure and financial mechanism oriented to community based local sustainable development and cofinancing of international projects
- Co-financing from local budget would be easier to secure if Partnership Agreements between OSA, OC and UNDP envisages compulsory financial share from oblast budget.
- Social mobilization with involvement of local governmental bodies, rayon and oblast administrations/ councils gives high optimism to solve community problems.
- Visibility of community activities and involvement of majority of the community members to work is very important for the overall success of the project.
- Existence of positive examples/success cases of micro-projects and peer to peer learning between COs and other stakeholders at the local level enhances pace and quality of Project implementation at local level.
- Release of first tranche from CBA creates a strong trust and confidence among the COs. Until they receive resource, they tend to remain in illusion and doubt.
- Level of involvement of focal persons in CBA implementation process depends on their regular work load and aptitude to support local communities

Key Challenges and potential threats:

 Global/national financial crisis and reduced state budget resource has posed difficulty in timely cost sharing from local authorities, especially in resource poor region/district;

- In isolated and income-scarce communities, it takes longer time to mobilise resources for cost sharing. It is more so in case of CBA area where the rayons, VCs/CCs and communities are selected based on their poverty and sufferings.
- In situation of budgetary constraint, some oblast authorities find it difficult to meet the costs related with office premises and utilities for their community resource centres
- The process of passing all stages (from priority setting to MPP approval to receiving first tranche to priority implementation) is often felt as long and causes decreas of interest and enthusiasm.
 Because communities/local stakeholders do not have prior experience on particularities of social mobilisation process and the internal processes of UNDP-led Projects.
- Rural residents are dependent on the cycle of agricultural work. Spring/summer period is a «dead season» in terms of gatherings and collective actions as villagers are busy in agricultural activities. People meet only to solve very pressing and urgent problems.
- Community gains maturity at a slow speed in a step by step manner and through learning by doing process.
- Necessity of quality technical documentation for micro-project proposal preparation require significant amount of money and involve skilled professionals (engineers, builders, people who work on PC, etc.) poses difficulties for the communities which, very often, lack resources and skill. Respective rayon authorities do try to help but they too face the same difficulties from time to time.
- The procedure of payment of the financial documentation is long, sometimes accounts become outdated, even more often prices for goods and services change upward.
- Time limits of the CBA project implementation are tight. But communities often do not realize the limit and tend to proceed according to their own capabilities. However, making them observe this requirement becomes a good stimulating and disciplinary factor.

Oportunities

Opportunity to strengthen rayon level community resource centres for further promotion of CBA methodology;

- Opportunity to expand awareness on CBA methodology through model demonstration;
- Capacity of oblast authorities to supplement fund for co-sharing in community initiatives

3.2 OUTLOOK FOR QUARTER III

Following activities are envisioned for 3rd quarter of 2009:

- Continuation of appraisal, approval and funding of micro-projects
- Enhancing of human resource at local level
- Mid-term evaluation of the CBA implementation
- Oblast level review of the CBA implementation by UNDP/CBA-management
- Documentation of the CBA implementation process
- Holding of Steering Committee meeting
- Effort for resource mobilisation for next phase of CBA
- Organisation of donors' visits
- Exploring mechanism for CO-financing through state budget

Chapter IV. ANNEXURE

|--------------------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|--|--|--|--|--|--|--|--|
| Oblast | Decisions and Resolutions | | | | | | | | |
| ARC, 23.04.2009 | Following the results of the regional meeting the following resolutions are developed. Rayon Councils and Rayon State Administrations should: 1) keep accurately to terms of signed with the CBA Project Partnership Agreements, in particular to consider the problem of assigning funds from local budgets to finance community micro-projects; 2) appoint focal points from Rayon State Administrations and Rayon Councils directly responsible for implementation of the CBA Project in the region | | | | | | | | |
| Chernihivska, 25.06.2009 | To favour development of newly created communities. Rayon leadership should assist communities in preparing MPP, guarantee co-financing of approved micro-projects. | | | | | | | | |
| Dnipropetrovska, 11.06.2009 | To favour communities at all levels by providing financial, technical assistance in the CBA Project implementation in the region. | | | | | | | | |
| Kharkivska, 16.04.2009 | Proceedings decision of the Oblast Coordination Council, decision to create a CRC, co-finance projects. | | | | | | | | |
| Luhanska, 15.04.2009 | To find out reasons for delay in financing by the CBA Project on first signed agreements. To study the question of co-financing MPP either from local or region budgets, or from additional fubds of farmers\ households. To hold a seminar for bodies of local self-governance and leaders of community organizations with 5 related OSA departments on coordination of CO micro-projects documents. To plan holding trainings on MPP realization and financial accounting to the CBA Project in april – may 2009 for communities that signed (or that are at the stage of signing) Agreements for cofinancing from the CBA. To continue forming first Rayon Community Resource Centers in Stanychno-Luhansky, Svativsky and Antratsytivsky rayons To solve the problem of substituting Rudovsky village council for territorial community from a reserve list. To spped up preparing and submitting on consideration MPP of Kalmykovka and Polovinkino communities To hold additional dialogues with communities from Butovo and Shulhinka villages to mobilize communities and speed up the CBA Project implementation process; To consider at LDF the problem of substituting community from Vyshneve village for one from a reserve list; To hold a dialogue with communities from Maloryazantsevo and Myrnodolyna villages to solve the question of either their further participation in the Project or substituting them for reserve ones; To collect and specify information about micro-projects of community organizations that need cofinancing with further solicitation for financial support from the region budget | | | | | | | | |
| Mykolaivska, 30.06.2009 | To speed up the CBA Project realization and provide any possible help to achieve the Projects objectives | | | | | | | | |
| Odeska, 18.05.2009 | Decisions: 1. To sign Partnership Agreement between OSA and the CBA Project 2. To solve the problem of equipping the office of oblast community resource centre, 3. To form OCC, 4. To activate preparation of MPP; | | | | | | | | |
| Volynska, 24- 25.05.2009 | To acknowledge the readiness of Volyn region leadership to finance 25% of community MPP cost (about 1.5 bln UAH) To consider the possibility of participation in new UNDP Projects To approve the List of micro-projects to co-finance from the region budget. To approve the Order of assigning ands using funds from the region budget - subvention to local budgets for micro-project co-financing. Oblast State Administration and Oblast Council should jointly consider the question of assigning additional funds from the region budget to co-finance community micro-projects initiatives. | | | | | | | | |
| Zaporizka, 12.06.2009 | To develop the mechanism of community initiatives co-financing from budgets of all levels. To provide for transfer from the region budget to local budgets amounting 10% of total Project cost. | | | | | | | | |
